

Angelo Stea
Italian Immigrant
Saturnia
July 28, 1951

I immigrated to Canada on a government work program setup to aid Canadian farmers after the war. After landing in Halifax we were transferred into a immigration centre in Montreal, and later sent to Saskatchewan to work in a farm in Winyard as a farm laborer. This was a mandatory program lasting one year.

After this work posting I moved to Regina, to work as a mechanic and later moved to Montreal and finally Toronto where I worked in construction and maintenance until retirement.
